

## 8100 SB All-in Zyklop Speed ratchet set, 3/8" drive

35-piece set; in surface-friendly, compact and extremely robust textile box. Small size and low weight for better mobility.

1 Zyklop Speed ratchet with 3/8" drive, 14 Zyklop sockets with holding function for external hexagon screws, 9 Zyklop bit sockets with holding function for TORX® socket screws, 8 Zyklop bit sockets with holding function for hexagonal socket screws, 1 Zyklop extension "flexible-lock" with fast-rotating sleeve, long, 1 Zyklop-"Wobble" extension, 1 tool for bolt removal

## Easy removal of the ratchet

Thanks to the Twist-to-unlock system, the ratchet can be easily removed.

## Pivots freely

The ratchet head pivots freely and can be locked into any defined position by using the slide switch that is positioned on either side. It is even possible to work in very confined and difficult-to-access areas with enhanced hand clearance. The predefined locking at 0°, 15° and 90°, both to the right and left, ensure safe working without any slipping of the ratchet head.

## Sockets with retaining function for hexagon headed bolts, screws and nuts

The clamping of the screw is achieved by a twin spring loaded ball retention system. The tubing is effectively protected against mechanical wear and tear by a steel ring. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.

## Bit sockets with retaining function for hexagon socket screws

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.
