

Test case, standard

For coolant measurements

Application:

The standard test case offers everything you need to measure in accordance with TRGS611. Various different versions provide you with even more options. You can also digitally measure conductivity and pH value, testing more quickly and reliably with the digital refractometer. (Options)

Execution:

▪ **Standard case contents:** 1x analogue refractometer with LED lighting, 0–18% 1x measuring strip pH 7 0–14.0 (100 pieces), 1x measuring strip hardness 0–28°dH (100 pieces), 1x measuring strip nitrite 0–25 mg/l (100 pieces), 2x sample glass 50 ml with wide neck for sampling, 1x plastic measuring cup, 250 ml, 1x digital thermometer, black (-50°C up to +110°C), 1x LED pocket torch titanium, incl. 3 AAA batteries, 1x calculator Solar Mini, 1x safety goggles, one size, 1x nitrile disposable gloves, black – 5 pairs

Advantage:

- Robust, high quality and compact
- Conforms to TRGS611
- Improves performance and saves money

Art. no.	18300181
Brand	HAMMA
Manufacturer Part Number	2201001
Harmonized System Code	90278990
Gross Weight	8.000 kg
