2. Reasons/Background:

Increased demand for Multilayer ceramic capacitors (hereinafter referred to as MLCC) in consumer and automotive electronic goods has led to a MLCC supply issue globally. The gap of supply and demand in the MLCC industry continues to expand and is expected to continue to do so. In order to provide as much continued support as possible to the market Murata must adjust our production capacity away from Legacy products to those in market demand. Therefore, as for the target items of this EOL, we will gradually reduce the production capacity and restrict the supply quantity to discontinue the production.

3. Product Withdrawal Schedule:
