

Advisory – PCN UPDATE

SUBJECT: *Additional manufacturing and testing capacity has been added in the Vishay Kaohsiung, Taiwan facility for selected Automotive Power MOSFETs*

Dear Valued Customer:

As part of the Vishay Siliconix commitment to delivering customers with reliable and cost-effective products, we are announcing the expansion of assembly and test capacity in our trade-friendly facility in Kaohsiung, Taiwan on selected Automotive Power MOSFETs. The package types included are the SOIC-8, PPAK1212-8, TSOP6, SSOT23 and PPAKSO8L. Power MOSFETs shipped from this facility will be tariff-free. This advisory is intended for US based customers and orders.

To take advantage of this tariff-free initiative, customers will need to order the parts with a new ordering prefix code “_BE3” (instead of our standard _GE3). The table showing the current and proposed ordering codes can be found on page 2 and 3 of this document.

There will be no effect on the quality, reliability, or performance. Shipments from the new location will start as referenced in page 2 and 3.

This is an advisory and does not require your response. Qualification results and samples, should they be required will be available as referenced in page 2 and 3.

For additional information, please contact your local Sales representative or the undersigned below.

Sincerely,

Satyavrat Laud
Vishay Siliconix
Senior Manager, Product Marketing
