one company › a world of innovation

Product Family	Commercial Micro-D		10653830
			GCN Number
Series	VARIOUS		November 12, 2014
			Date Issued

Reason For Change	Product Component Change
Change Description	The purpose of this letter is to inform you that for continuous product improvement, and to aid our customer, Molex is redesigning the Jackpost retainer P/N 830410078 used on the vertical mounted Commercial Micro-D plugs. To assist the customer on insertion into the customer PC Board, we are adding a slight lead-in taper to the jackpost retainer serrations. This is a running change; we did not change any material, only affected form, and there are no implementation instructions. All affected part numbers will have revised jackpost retainers once existing stock has been depleted.

Part Numbers Affected	Please refer to CustomerPartList.csv attached to e-mail message.
Reason For Short Notice Exception	8D Corrective Action Changes
Assessment Of Change (How Product Will Be Qualified & Validated)	Redesign post on part for clean, clear, insertion
