

Product Change Notification Letter

Dear Trumeter Customer:

This letter is to inform you of possible changes to our 63XX series of electronic counter and hour meter lines that you have purchased in the past.

Models: – 6300-0500-0000, 6300-1500-0000, 6300-2500-0000, 6320-0500-0000, 6320-1500-0000 and 6320-2500-0000

Trumeter is looking to rationalize our 1/32nd Din counters and hour meters and because of this, we are looking for feedback from our distributors and OEM's on the use of the programming features available with the P63 Series. I am asking for direct contact with your customers who purchase these models to help Trumeter decide if they will remove this feature from the planned redesigned meter.

Effective Response Date: April 15th, 2019

Detailed Information:

- Redesign of our 1/32nd DIN counter and hour meter products.
- Removal of the programming features on Trumeter's 6300/6320 counters and hour meters.

Description of Change:

- The redesigned meter will fit in the same panel opening and will provide all features except for the programming option.

Recommended Actions:

- No actions are required at this time.

Questions:

Trumeter is committed to your total satisfaction and to providing high-quality, long-term support and service for our products. If you have any questions or concerns, please contact me directly.

- Kenneth Daglio - Product Manager at ken.daglio@trumeter.com
