Pen Type Digital pH Meter multicomp PRO

Features

- Automatic calibration for pH 4.01, pH 7.00 & pH 10.01
- Easy replacement of pH electrodes
- Simultaneous display of pH and Temperature
- Build in ATC (Auto temperature compensation)
- Waterproof
- Temperature measurement options - °C or °F
- Data hold function for freezing the desired value
- Auto power off without any operation after 10 mins
- Microcomputer circuit, intelligent function, high accuracy
- Compact size, light weight
- Power supply by DC 1.5V Battery (LR44) x 4 pcs"

Application

- Aquarium
- Beverage
- Fish farming
- Food industry
- Laboratory
- Swimming pools & SPA
- Water treatment

Specifications

Display	LCD, size: 20mm × 27mm. Consumption	
Measurement Range	pH	0pH to 14pH
	Temp.	0°C to 50°C (32°F to 122°F)
Resolution	pH	0.01pH
	Temp.	0.1°C / 0.1°F
Accuracy	pH	±0.03pH (After calibration)
	Temp.	±0.8°C / ±1.5°F
pH Calibration	pH 7.00, pH4.01 or pH 10.01, 3 points calibration	
Operating Humidity	Less than 80% RH	
Dimension	188 × 38 (electrode included)	
Weight	82g (electrode included)	

Part Number Table

Description	Part Number
pH Meter, 0pH to 14pH	MP780647
