What does "P" mean? "P" is for "panel mount" in this product. This Grove - Button is a sister version of original Grove - Button (http://www.seeedstudio.com/depot/grove-button-p-766.html?cPath=156_160). They are identical except the Grove connector is moved to the back so that you can easily use it as a neat and wire-free human interface device.

For all Grove users (especially beginners), we provide you guidance PDF documents. Please download and read through Preface - Getting Started (<http://www.seeedstudio.com/document/pdf/Preface.pdf>) and Introduction to Grove (<http://www.seeedstudio.com/document/pdf/Introduction%20to%20Grove.pdf>) before your using of the product.

Seeed?

Seeed is a hardware innovation platform for makers to grow inspirations into differentiating products. By working closely with technology providers of all scale, Seeed provides accessible technologies with quality, speed and supply chain knowledge. When prototypes are ready to iterate, Seeed helps productize 1 to 1,000 pcs using in-house engineering, supply chain management and agile manufacture forces. Seeed also team up with incubators, China tech ecosystem, investors and distribution channels to portal Maker startups beyond.
