Safety and handling

Consult the Safety Data Sheet before use

Directions

Apply a thin coat of Polyolefin Primer on surfaces to be bonded by bush and let to dry a few seconds.

Apply Instant Adhesive and press together.

Handling strength is obtained within few seconds.

Best results are obtained if substrates are bonded within one hour of Primer application.

Polyolefin Primer should be reapplied after eight hours.

Polyolefin Primer is fluorescent under blue lamp.

Do not use on materials which usually do not need.

The bottle of Polyolefin Primer must be immediately sealed after use.
