

Bits for Hexagon Socket Screws

<b>EAN:</b>	4013288225269	<b>Size:</b>	165x60x9 mm
<b>Part number:</b>	05073201001	<b>Weight:</b>	15 g
<b>Article number:</b>	9506 SB 4-in-1 Bit 1	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82079030

- Innovative, extremely compact quadruple bit - only one bit for four different screw sizes
- Suitable for hexagonal socket screws sizes 3.0; 4.0; 5.0 and 6.0
- Tough for hard materials
- 1/4" hexagon drive (Wera connecting series 1)

Four different screw profiles (hexagonal socket screws sizes 3.0; 4.0; 5.0; 6.0) can be operated with only one bit. Significant weight savings of over 50 %. The operability of the large profiles is made possible by the spring compression of the small tips. The bit has a 1/4" hexagon drive (Wera connection series 1) and can therefore also be used with e.g. bit ratchets and bitholding screwdrivers with Rapidaptor.

**The 4-in-1 bit 9506**

**Tough-absorbing bits**

The 4-in-1 bit 9506 can be used to operate four sizes of hexagonal socket screws (3.0; 4.0; 5.0; 6.0). In order to use the larger profile, continuously press against the spring tension while screwdriving so that the smaller profile is countersunk and the larger profile can be used.

Tough-absorbing Wera bits (Z) prevent any premature breakage of the drive tip.
