

Issue Date: July 5th, 2019

Dear Valued Customer,

This notice is to inform you of a manufacturing site change affecting selected items that you have purchased from Littelfuse.

Description of the Change:

- We previously announced our intent to move select work cells from our Piedras Negras Distribution Center to our Piedras Negras Manufacturing Site. This plan has been modified to instead move these work cells to our Muzquiz Manufacturing Site.
- Additionally, and concurrently, we are expanding the scope of this move to include certain products from our Piedras Negras Manufacturing Site to join in this move to our Muzquiz Manufacturing Site.

Reason for The Change:

- Replacing LFPCN.C0229, this site consolidation effort capitalizes on internal Business Unit site ownership.
- Final packaging and assembly operations will now occur within the site of primary manufacturing.
- All North American fuse holder assembly operations will now be within a single site.

Effective Date of the Change:

- This move will occur during the week of August 5th, 2019.
- Production will begin out of our Muzquiz site beginning the week of September 3rd, 2019.

What You Need to Do:

- Based on current demand and forecast, we are building stock to cover the time for transfer and qualification. As a result, there will be no disruption to your supply of finished goods.
- As no finished good part number will exhibit changes in fit, form, or function due to this initiative, no action is required from you.

If you have any questions, please feel free to contact your Littelfuse Customer Service Representative or your Inside Sales Representative. We appreciate your business and our continued partnership.

Sincerely,

Zacke Naughton
Global Product Manager
Littelfuse Commercial Vehicle Products

Michael DiCola
Associate Product Manager
Littelfuse Commercial Vehicle Products
