PRODUCT DATA SHEET

Product	Boiled Linseed Oil
Type	Modified so as to increase the rate of drying and hardness of the film
Intended Use	Ideal for oiling bare wood, adding to paint and softening Metal Glazing Putty. Not suitable for oiling furniture or wooden floors. For furniture use Rustin's Danish Oil or Teak Oil . For floors use Rustin's Floor Oil .
Special Features	Boiled to speed up drying time.
Preparation	Ensure surface to be oiled is clean and dry.
Application	Apply with a rag or brush and wipe off excess with a dry rag or cloth.
Coats	Apply 2 – 3 coats initially.
Drying Time	16- 24 hours. Dependant on temperature, humidity and film thickness.
Re-coating Time	Recoat once oil has dried.
Application Temp.	Ideally 15-25°C. Do not use below 10°C, or in conditions of high humidity.
Coverage	11- 14 square metres per litre per coat, depending on the absorbency of the wood
Maintenance	Re-oil periodically. Surfaces treated with Boiled Oil can be cleaned with a damp cloth.
Compatibility	Compatible with most oil based products. Refer to manufacturer before mixing with other products.
Settlement	Shake well before use.
Shelf-life/Storage	The shelf life of the product in an airtight container is a considerable period of time. It is preferable to store the product in a cool place. It is important to replace the lid and ensure an airtight seal.
Hazards	Low Hazard. See Health & Safety data sheets. Important: Rags used for oiling should be laid out flat to dry; otherwise they may catch fire due to spontaneous combustion.
Clean-Up	Clean brushes with white spirit or Rustin's Brush Cleaner . Brushes that have hardened may be cleaned with Rustin's Brush Restorer .
Sizes	125ml 250ml 500ml 2 L 4 L 25 L
