

Heavy-duty clamps with locking screw

Execution:

- Spindle made from heat-treated steel
- Basic body painted
- Spindle head burnished
- With locking screw, heavy-duty version
- Clamps without support

Advantage:

- Swivel mounted ball minimises contact friction
- No transfer of rotational forces to the workpiece through spindle movement.

Art. no.	26160 070
Brand	AMF
Manufacturer Part Number	72652
Min./max. support plate height	430-750 mm
Load-carrying capacity	5000 kg
Width across flats	65 mm
Length	220 mm
Width	26 mm
Width 1	190 mm
Spindle diameter	40 mm
Gross Weight	13.200 kg
Product Group	260
