

META MINI-RACK picking shelf with roller conveyors

Load capacity per bay 200 kg, galvanised

Execution:

- Base elements are based on the proven quality shelving system META MINI-RACK
- Basic rack, can be extended as required using an add-on rack
- 8 roller conveyors per level, adjustable in increments of 6 mm
- The roller conveyors can be partitioned flexibly depending on the size of the stored goods using guide rails (available separately)
- The uppermost level is fully available for loading since there are no crossbraces
- The stored goods automatically slide over the roller conveyors to the removal side
- Shelves adjustable in increments of 50 mm
- Low front stop side for easy removal of boxes and crates
- Basic shelf planning dimensions: Nominal length + 107 mm, frame depth 1300 mm (overall)
- add-on shelf planning dimensions: Nominal length + 51 mm
