

06-Oct-2022

PCN #: P-22-023437

Subject : Mezalok connectors

Description of Change : Changing the .36 dimension on the customer drawings to .23 +/- .13. This dimension depicts the distance between the tip of the solder balls and the standoffs on the bottom of the connector. The old dimension did not take into account the deformation of the solder balls during their attachment to the connector contacts. We have conducted a soldering test on specimens on the lower end of this new tolerance range and found that the parts adhere acceptably to the PCB solder pads. We have also begun 100% screening for this dimension, in addition to the coplanarity checks we already perform. No change has been made to the product.

Reason : New specification.

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
