

CWH-CTP-COP-YE:
Power Architecture® processor (COP) Probe Tips for CodeWarrior® TAP

Follow (mailto:?[subject=Power%20Architecture%20processor%20for%20CodeWarrior%7CNXP&body=https://www.nxp.com](mailto:?subject=Power%20Architecture%20processor%20for%20CodeWarrior%7CNXP&body=https://www.nxp.com))

[Overview\(//support/developer-resources/software-development-tools/codewarrior-development-tools/run-control-devices/power-architec](http://support/developer-resources/software-development-tools/codewarrior-development-tools/run-control-devices/power-architec)

Overview

The NXP® CWH-CTP-COP-YE is a removable probe tip targeted for Power Architecture® processors (see Supported Devices for precise list). This probe tip connects the Power Architecture microprocessor target system’s JTAG port to the CodeWarrior® TAP base unit’s 30-pin target connector.

This tip is compatible with the CodeWarrior TAP CWH-CTP-BASE-HE ([/support/developer-resources/software-development-tools/codewarrior-development-tools/run-control-devices/codewarrior-tap:CW_TAP?cof=0&am=0&tab=Buy_Parametric_Tab](http://support/developer-resources/software-development-tools/codewarrior-development-tools/run-control-devices/codewarrior-tap:CW_TAP?cof=0&am=0&tab=Buy_Parametric_Tab)) base unit. Base units do not come with a probe tip so you must have at least one of these to debug your device.
