

Construction kit for radial shaft seals

7-part, in plastic case with foam inlay

Application:

For extracting radial shaft sealing rings, sealing sleeves, seals, bearing seals and shaft seal rings.

Execution:

- Screw special self-tapping screws into the seal sheet cover; beat out sealing ring using the slide hammer
- Depending on the space available, the pulling process can also be completed using the universal extractor lever

Advantage:

- 2-component handles for maximum force transmission

Art. no.	55008 030
Brand	KUKKO
Manufacturer Part Number	K-222-1/7
Impact length	230 mm
Impact weight	0.5 kg
Gross Weight	2.885 kg
Product Group	5JA

EAN

4021176222757
