PCN #:E-18-019026

Subject:AMPSEAL Right Angle Headers

Description of Change: Purpose is advanced notification of manufacturing changes related to AMPSEAL Right Angle Headers. AMPSEAL is a TE Connectivity General Market product line with sales to many customers worldwide. A new right-angle header pin semi-automated stitching and automated testing line work center is being implemented. The new assembly cell will be located at a qualified TE Connectivity Mexico manufacturing location, an IATF certified site. The new line will produce all sizes of the right-angle header. There are no changes to component material or TE suppliers

Reason: This product line has seen extensive demand increases from our customer base. This demand is outpacing the current capacity and has impacted on-time deliveries. TE is investing to ensure that the current situation is corrected, as well as for the future, consistent with our goal of on-time delivery of defect free products. The new semi-automated assembly cell will supplement overall capacity with the existing processes at the TE Connectivity Mexico manufacturing location. This PCN is in addition to and does not replace PCN 18-008640 which was previously distributed for new automation line and capacity tools. If you require PPAP submission, please place request with ict-ppap-request@te.com A level 4 will be submitted upon request.

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
