

Separator

Use in combination with puller device

Application:

For separating and detaching parts to be removed from their position.

Execution:

- Centred clamping of the separating jaws thanks to the key-operated pressure spindles
- Sharp blades on the separating jaws also detach close-fitting parts

Art. no.	55200 020
Brand	GEDORE
Manufacturer Part Number	8019840
Max. clamping width	215 mm
Min./max width of mouth	22-115 mm
Gross Weight	2.400 kg
Product Group	5JB

EAN

4036976105766
