

Separating plate

Execution:

- Sheet metal partitions: In combination with the slot walls, the drawers can be divided into any kind of layout. The labelling field is offset over the entire width and is used to hold labelling tabs or barcode carriers. The lower edge toward the front enables the separating plates to be screwed to the perforated drawer base. The mass is stamped on each separating plate. Design: Aluminium.

Art. no.	50309 020
Brand	LISTA
Manufacturer Part Number	95.306.000
Length x height	116 x 75 mm
Number of pieces per packet	5 PCS
Gross Weight	0.600 kg
Product Group	5AN

EAN

7612269054583
