

Two-arm puller with quick-adjustment puller hook

Hook brake, key operation

GEDORE
WERKZEUGE FÜR'S LEBEN

Application:

For internal and external extraction of washers, wheels, ball bearings.

Execution:

- Strong, drop-forged design
- For key actuation

Advantage:

- Can be used as external or internal extractor by switching the hooks
- Setting scale for even hook adjustments
- With hook stop to secure against unwanted slippage; pressing the button moves the hook

Art. no.	55028 212
Brand	GEDORE
Manufacturer Part Number	1956345
Extractor design	Two arms
Max. external clamping width	140 mm
Max. internal clamping width	180 mm
Max. clamping depth	100 mm
Max. pulling force	3 t
Gross Weight	1.200 kg
Product Group	5JB
