

# Cable Connector

## Features

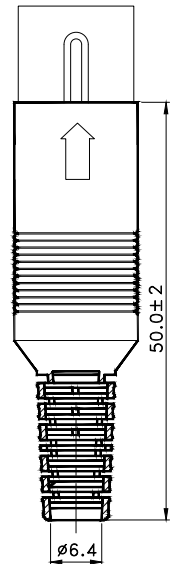

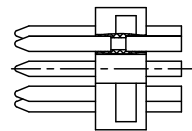

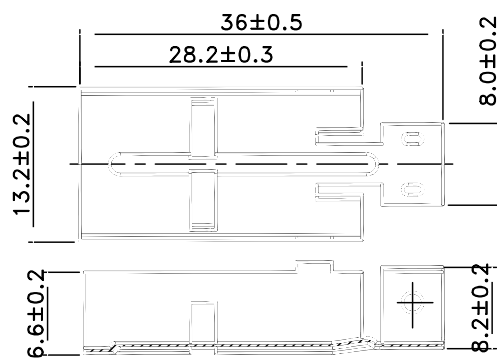

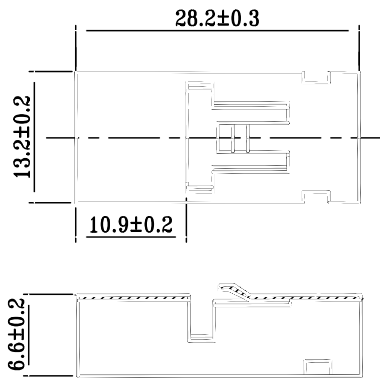

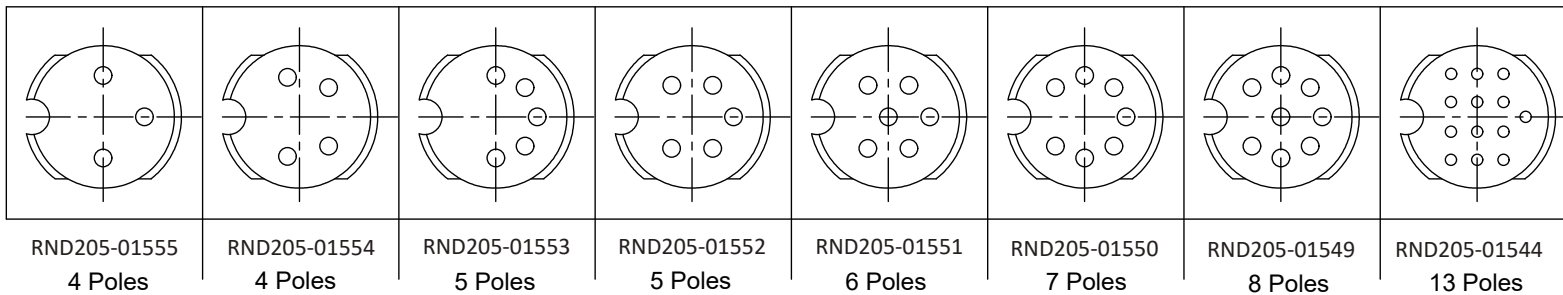

- Cable connectors are designed to facilitate the connection and disconnection of cables while ensuring compatibility between various devices or components.
- A crucial feature of cable connectors is their ability to establish a secure and reliable connection.
- Cable connectors are engineered to withstand repeated use and endure environmental factors like temperature variations, moisture, physical stress, and more.

## Specification

Connector	Cable connector, Male Panel Connector
Molding	PE, Colour: Black
Shell B	Tinplate, Nickel plated
Shell A	Tinplate, Nickel plated

## Drawing

### ELECTRICAL TEST:

- (1) 100% OPEN SHORT & MISS WIRE TEST
- (2) The product is Reach/RoHS compliant.
