# **Eccentric Clamps**

## 23271.0005

#### **Product Description**

The eccentric clamp allows clamping with pull-down effect on different workpiece forms at low height.

#### **Material**

· Case-hardened steel, case-hardened and blue zinc-plated

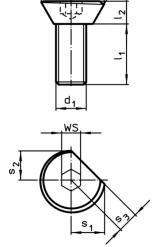

#### **Assembly**

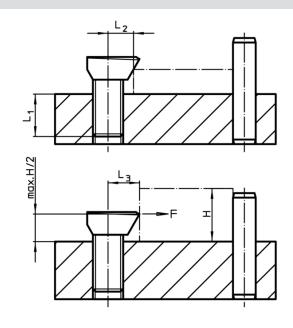

- 1. Manufacture a thread with the corresponding distance  $L_2$  /  $L_3$  to the workpiece.
- 2. Screw in the eccentric clamp at the necessary height and set it relative to the workpiece with its flat side.
- 3. Insert the workpiece and tighten the clamping pin using the internal hexagon. The proper tension is achieved after approx. 1/3 turn.

The threaded hole must be lubricated on a regular basis.

The rotational movement during tightening must always be completed towards the stops in order to prevent the workpiece from turning away from the stops.

## **Application example**

## Compliance

#### **RoHS** compliant

Contains lead - compliant according to exceptions 6a / 6b / 6c

#### Contains SVHC substances >0,1% w/w

Contains lead - SVHC list [REACH] as of 10.06.2022

## **Contains Proposition 65 substances**

Lead can cause cancer and reproductive harm from exposure https://www.P65Warnings.ca.gov/

## **Free from Conflict Minerals**

This product does not contain any substances designated as "conflict minerals" such as tantalum, tin, gold or tungsten from the Democratic Republic of Congo or adjacent countries.
