

**Model number**

UC-30GM-R2

Dimensions**Technical data****Mechanical specifications**

Connection	Sub-D socket, 9-pin
Material	
Cable	PUR, black
Cable length	3 m

Notes

The UC-30GM-R2 interface cable enables the parameterisation of ultrasonic sensors of types UC...-30GM-..R2-V15 using the ULTRA 2001 service software. The cable creates a connection between the PC-internal RS 232 interface and the connector of the temperature/programming plug on the sensor.

At PCs without RS 232 interface the connection can alternatively be done at a free USB port. For this purpose, additionally an interface adapter USB-0,8M-PVC ABG-SUBD9 is required.
