**Explanation of Symbols**

The symbol with the exclamation mark in the triangle is used to indicate important information in these operating instructions. Always read this information carefully.

**Safety Instructions**

**Read the operating instructions carefully and especially observe the safety information. If you do not follow the safety instructions and information on proper handling in this manual, we assume no liability for any resulting personal injury or damage to property. Such cases will invalidate the warranty/guarantee.**

- The product is not a toy. Keep it out of the reach of children and pets.
- Do not leave packaging material lying around carelessly. These may become dangerous playing material for children.
- Protect the product from extreme temperatures, direct sunlight, strong jolts, high humidity, moisture, flammable gases, vapours and solvents.
- Please handle the product carefully. Jolts, impacts or a fall even from a low height can damage the product.
- Clear eyewear offers no protection against glare from the sun.
- It is advised that this eyewear should not be worn over prescription frames, as there is the possibility that any impact may be transmitted to the prescription frame creating a hazard for wearer.
- No parts on this eyewear are replaceable or interchangeable. If any part of the eyewear is deemed unfit for use then the whole product should be discarded.
- If wearing a respirator, make sure eyewear does not interfere with the fitted seal.
- The material used in the constructing of this product is hypo-allergic, but it is possible an allergic reaction may be experienced by susceptible individuals. In the case of a reaction, the user should remove the product and seek medical advice from a qualified doctor.
- Always inspect eyewear before each use! Damaged or dirty eyewear limits protection and can reduce vision. If necessary, equipment should be cleaned, repaired or replaced before use.
- Eye protection should be suitable for and sufficient enough for the hazard and risk identified in the task(s).
- If you have questions which remain unanswered by these operating instructions, contact our technical support service or other technical personnel.

**Cleaning and Storage**

- Do not use aggressive cleaning agents, rubbing alcohol or other chemical solutions as they can cause damage to the housing, lens, or impair functionality.
- Rinse using lukewarm water, then gently wipe dry using a soft non-abrasive fibre cloth.
- Store clean eyewear in a closed container protected from dust, moisture or damage.
