

NEXXIT swivel work chair with glide runners

Integral foam upholstery

bimos

Application:

Nexxit combines first-class industrial ergonomics with minimum adjustment effort. Its synchronous technology with automatic weight management is unique in the industrial environment. Operation is intuitive and requires only one lever. The backrest pressure fully automatically adjusts to body weight, thus providing ideal body, application and movement-compatible support.

Version:

- Three-stage pre-selection: Depending on the work requirements, the movement range of the backrest can be pre-set in three stages, allowing for perfect customisation to different tasks
- The extremely sturdy construction makes Nexxit perceptibly robust and resilient
- Robust functional handles ensure maximum mobility and easy handling
- The backrest cushioning ergonomically follows the S-shape of the spine
- The special shape supporting back curvature provides additional support for lumbar vertebrae

Art. no.	50128 226
Model	NEXXIT
Material of seat/backrest	PU foam
Min. seat height	450 mm
Max. seat height	600 mm
Min./max. seat height	450-600 mm
