

Open-end spanner set JOKER

4 or 11 pieces, in textile bag

Execution:

- Made from chrome-molybdenum steel
- Nickel/chrome coating
- Ratchet mechanism on the ring side
- Finely serrated ring ratchet with 80 teeth
- Jaw side with clamping function and bi-hexagonal shape
- Jaw return angle of 30°

Advantage:

- Excellent rigidity and torque transfer thanks to cutting geometry
- Bi-hexagonal shape for positive force transfer
- clamping function for secure clamping of nuts and bolts
- end stop reduces risk of slipping
- Nickel/chrome coating protects against corrosion

Delivery:

In robust tool roll
