

Revolving centring point

Flex, for interchangeable inserts

Application:

For rough machining and fine turning in general turning operations.

Execution:

- Body hardened and ground.

Advantage:

- Very flexible thanks to interchangeable inserts.

Delivery:

1x revolving centring point.

Art. no.	22144 040
Brand	RÖHM
Manufacturer Part Number	61038
Morse taper size	MK 4
Programming size	67 mm
Programming size for housing	68.5 mm
Max. workpiece weight	250 kg
Concentricity tolerance	0.01 mm
Diameter of housing	67 mm
Gross Weight	1.800 kg
Product Group	201

EAN
