

2784

**Watchmakers Slotted Screwdrivers
with Precision Grip 2.5-4.5 mm**

PRODUCT DETAILS

- For slotted head screws
- Precision screwdriver
- Pressure on the head turns the wedge in the tip until the screw is held firmly and can then be inserted easily into the threaded hole
- Fast, easy and precise turning
- Brass handle
- Black finish tip for higher accuracy
- Fast, easy and precise turning
- Two-component handle provides comfortable grip and transmits a high torque to the blade
- Rotating head allows the tip to be perfectly positioned for fast and comfortable finger movement during turning, reducing tightening time
- Developed for comfortable and secure work
