VAA-4E4A-G12-ZAL/EA2L

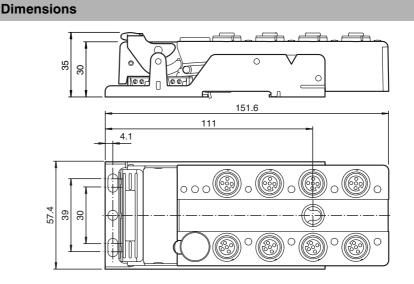

Model number

VAA-4E4A-G12-ZAL/EA2L

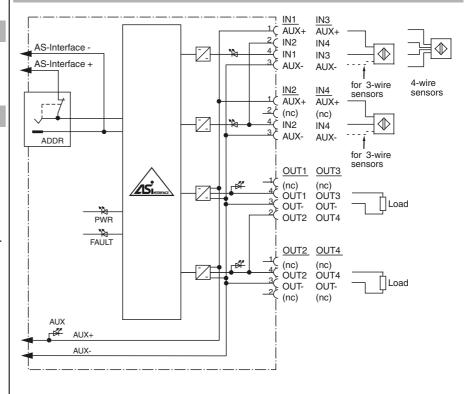

G12 flat module 4 inputs (PNP) and 4 electronic outputs

Features

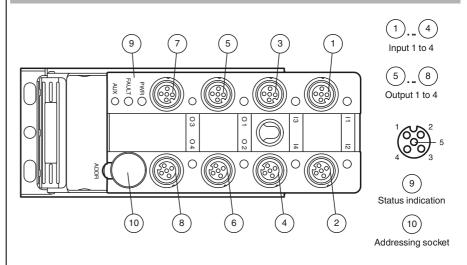

- One-piece housing with stainless • steel base
- Installation without tools
- Metal threaded inserts with SPEED-CON technology
- Flat cable connection with cable pier-• cing technique, variable flat cable guide
- Red LED per channel, lights up in the • event of output overload
- Communication monitoring, configu-• rable
- Inputs for 2-, 3-, and 4-wire sensors •
- **DIN** rail mounting •
- AS-Interface certificate •

Electrical connection

AS-Interface sensor/actuator module

Technical data

Technical data			
General specifications			
Slave type		Standard slave	
AS-Interface specification		V3.0	
Required master specification		≥ V2.1	
UL File Number		E87056	
Functional safety related parame	ters		
MTTF _d		180 a	
Mission Time (T _M)		20 a	
Diagnostic Coverage (DC)		0 %	
Indicators/operating means			
LED FAULT		error display; LED red	luces is 0
		red: communication error or add red flashing: overload of sensor	
LED PWR		AS-Interface voltage; green LEI	
		green: voltage OK	
		flashing green: address 0	
LED AUX		ext. auxiliary voltage U _{AUX} ; dual green: voltage OK	LED green/red
		red: reverse voltage	
LED IN		switching state (input); 4 LED ye	ellow
LED OUT		Switching status (output); 4 yelle	ow/red LEDs
		Yellow: output active	
		Red: output overload	
Electrical specifications			
Auxiliary voltage (input)		24 V DC ± 15 % PELV	
Auxiliary voltage (output) Rated operating voltage	U _{AUX}	24 V DC ± 15 % PELV 26.5 31.6 V from AS-Interface	2
Rated operating voltage	U _e I _e	$\leq 40 \text{ mA}$	5
Protection class	e		
Input			
Number/Type		4 inputs for 2- or 3-wire sensors	
Number Type		option 2 inputs for 4-wire sensor	
Supply		from external auxiliary voltage L	J _{AUX}
Current loading capacity		≤ 600 mA overload and short-ci	rcuit resistant
Input current		\leq 8 mA (limited internally)	
Switching point		according to DIN EN 61131-2 (Туре 2)
0 (unattenuated)		≤2 mA	
1 (attenuated)		≥ 6 mA	
Signal delay		< 1 ms (input/AS-Interface)	
Output			
Number/Type		4 electronic outputs, PNP, overla	
Supply		from external auxiliary voltage L	J _{AUX}
Current		2 A per output 6 A total (TB \leq 40 °C)	
		4 A total (TB \leq 70 °C)	
Voltage		≥ (U _{AUX} - 0.5 V)	
Programming instructions			
Profile		S-7.F

VAA-4E4A-G12-ZAL/EA2L

Function

The VAA-4E4A-G12-ZA/EA2L is an AS-Interface trigger module with 4 inputs and 4 outputs. 2- and 3-wire sensors as well as mechanical contacts can be connected to the plus switching electronic inputs. The outputs are electronic outputs which can be energized with max. 24 V DC and 2 A per output.

The solid housing permits fast mounting without tools as well as easy removal without tools. The stainless steel shell and the cast housing ensure durability and a high protection category.

The connection to the AS-Interface calbe and to the external power supply is achieved via penetration technology in the integrated flat cable. The insert for the flat cables can be turned in two orientations.

All connections to inputs and outputs are implemented via metal inserts for high stability. The connection to the sensors/actuators is achieved via a M12 x 1 circular connector with SPEEDCON quick locking option.

The inputs and the connected sensors as well as the outputs and the connected actuators are supplied via an external power source (AUX).

To indicate the current switching state there is an LED for each channel fitted to the top of the module. The outputs are protected against overload and short circuit, an output overload is indicated via an LED per channel. An LED to indicate the AS-Interface voltage and that the module has an address of 0 is available, another indicates errors in the AS-Interface communication as well as periphery faults. Another LED indicates the external power supply (AUX).

This module can be mounted in any position using three screws or can be snapped onto the DIN rail using the stainless steel holder.

An output overload is reported to the AS-Interface master via the function "periphery fault". The communcation with the AS-Interface remains intact.

Accessories

VBP-HH1-V3.0-KIT AS-Interface Handheld with accessory

VAZ-V1-B3

Blind plug for M12 sockets

VBP-HH1-V3.0 AS-Interface Handheld

VAZ-PK-1,5M-V1-G Adapter cable module/hand-held programming device

VAZ-CLIP-G12 lock for G12 module

VAA-4E4A-G12-ZAL/EA2L

Degree of protection	IP67
Connection	Cable piercing method flat cable yellow/flat cable black inputs/outputs: M12 round connector
Material	
Housing	PBT
Mass	230 g
Mounting	Mounting base
Compliance with standards and direct ves	i-
Directive conformity	
EMC Directive 2004/108/EC	EN 61000-6-2:2005, EN 61000-6-4:2007, EN 50295:1999
Standard conformity	
Noise immunity	EN 61000-6-2:2005, EN 50295:1999
Emitted interference	EN 61000-6-4:2007
Input	EN 61131-2
Degree of protection	EN 60529
Fieldbus standard	EN 50295, IEC 62026-2

Notes

For 4-wire sensors, it is only possible to use plug-in slot IN1 or IN3 for inputs 1+2 or 3+4 (jumpered internally).

Do not connect inputs and outputs, which are supplied via the module from AS-interface or via auxiliary power, with power supply and signal circuits with external potentials.
