

Reverse counterbore system TU

For universal use up to 1000 N/mm²

Application:

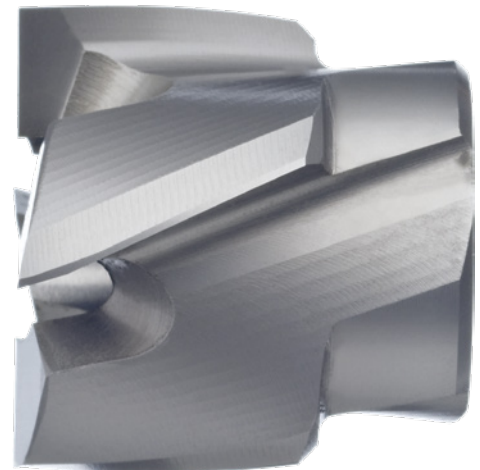

For producing 180° reverse counterbores

Execution:

- Reverse counterbore system TU 180° HSS

Advantage:

- Manual reverse machining, counterboring, core drilling
- Universal, can be used on a wide variety of machine types
- The flat bayonet allows the countersink to be changed manually in a quick and safe manner
- A wide range of combinations for the countersink and guide diameters are possible
- The same basic holder (TUHW) and adapted guide bushes (TUB) can be used to cover a range of guide diameters in a cost-effective manner

Art. no.	11590 170
Brand	HERMANN BILZ
Manufacturer Part Number	TU 1700801
Spot-facer diameter	17 mm
Hole diameter of mount	8 mm
Length	32 mm
Cutting material	HSS
Gross Weight	0.030 kg
Product Group	116
