

Cable glands / General Accessories

Pressure compensation element DAE, up to IP 69

DAE M12 9005

Order no.: 52042000

M12 x 1.5; plastic

* = Available on request.

Characteristics

Colour of enclosure group

Black, similar to RAL 9005

Colour of enclosure group

Black

Protection class

IP 69

Scope of delivery

5 pieces

Note

Air, which may create a vacuum in the enclosure when it cools, can suck in water etc. through the seal into the enclosure, which means that ingress protection can no longer be guaranteed. BOPLA's product range includes the pressure compensation element to compensate such variations in pressure caused by differences in temperature. When installed, protection classes IP 66, IP 68 (0.2 bar, 60 min) and IP 69 can be achieved.

Important!

To compensate for pressure when temperatures change and cause moisture in the enclosure, we recommend that you use a pressure compensation element.
