

## Protective sleeve for lifting straps and round slings

Flat profile tube made of polyurethane

### Application:

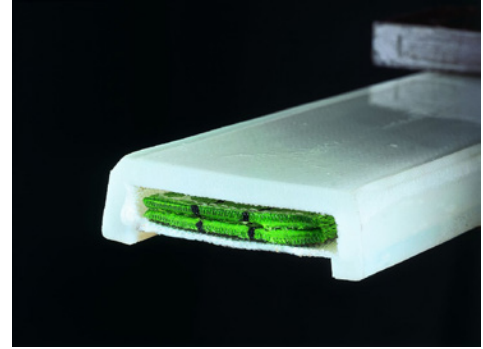

For the protection of lifting straps and round slings when lifting loads with sharp edges, for example when winding coils.

### Execution:

- Profile tube with min. 5 mm polyurethane coating
- Smooth on one side
- Special textile lining
- Suitable for retrofitting

### Advantage:

- Reliable protection against fabric tears, even with sharp edges
- The lifting strap glides through the profile tube and the load is securely aligned
- Increase the service life of lifting straps and round slings
