Product Name: Gravity Sensor Cable For LattePanda (10 Pack)

Introduction

The best way to connect sensors and actuators to your LattePanda! These wires are specially designed for LattePanda and DFRobot Gravity Sensors. Compatible with a wide range of Gravity sensors, easy to connect without any issues thanks to the unique anti-reverse-polarity design.

Includes 10 pcs.

Specification

- Length:20cm (8 in)
- Maximum voltage:<50V
- Maximum current:<1000mA
- One KF2510-3P connector
- One PH2.0-3P connector
- Red: PWR; Black: GND; Orange: Signal
