

mikroBoard for PIC 80-pin with PIC18F8520

PID: MIKROE-707

The mikroBoard is miniature development tool which includes microcontroller, programmer, small proto board and two 2x40 female headers for connection with UNI-DS6 development system.

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
ISO 14001: 2015 certification of environmental management system.
OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).

Specifications

Type	mikroBoard
Architecture	PIC (8-bit)
Programming	On-Board
Silicon Vendor	Microchip
Supply Voltage	USB
Category	mikroBoard
