

Loose sliding blocks

Application:

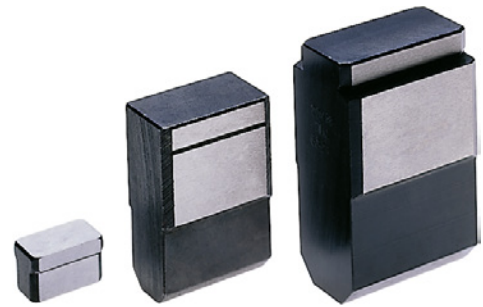

For positioning tools on jigs.

Execution:

- C 15 case-hardened and polished
- Ref. no. 212 for small machines = jig groove 12 mm
- Ref. no. 312-322 for small machines = jig groove 20 mm

Advantage:

- When transporting the device, there are no sliding blocks protruding from underneath to cause a problem and the machine table cannot be damaged.

Art. no.	26196 322
Brand	AMF
Manufacturer Part Number	71886
Form	C
Slot size on machine	22 mm
Slot size on device	20 mm
Height	50.5 mm
Length	40 mm
DIN	6323
Gross Weight	0.305 kg
Product Group	260
