

JBC JN2012

Nozzle for JT heater

JBC

JT nozzles extend the potential of the JT-TA heater.

They direct the heat to a particular area so that protect adjacent components.

The range features different shapes and diameters to regulate the hot air flow.

All models are easily interchangeable.

SPECIFICATIONS

Net weight	0,007 kg (0.02lb)
Package weight	0,01 kg (0.03lb)
Package dimensions	60 x 35 x 27 mm 2.36 x 1.38 x 1.06 in
