Subject: Label Change For KLDR, CCMR, KLK, KLKD, & KLKR Series Fuses

Document# LFPCN\_PG0025

Date: 7/25/2012

This letter is to inform Littelfuse Sales, Sales Support & Customers of a text change to the label used in the construction of the KLDR, CCMR, KLK, KLKD, & KLKR Series fuses. The letter "A", which denotes Ampere, was added to the label's identifier field following the ampere rating to make the fuse marking more descriptive. This was a running change effective October 28, 2011. The new label will be incorporated upon depletion of current label inventory. There is no change to product numbers and no updates are required to ordering systems. Only the labels have changed. Please see the affected SKUs on page two and three of this document.

Thank you for your continued business.

Sincerely,

Jim McGuire  
Associate Product Manager  
Littelfuse Powr-Gard Products  
773-628-0708
