

**Automatic wire stripping pliers 0.2–16 mm²**

Self-adjusting, with adjustable longitudinal stop, pistol grip

**Application:**

For automatic stripping of fine-strand and solid conductors with PVC insulation.

**Execution:**

- Interchangeable high-quality, hardened steel inserts
- Fully insulated, robust design made from fibre glass-reinforced polyamide
- With ergonomic handles and additional locking option
- Length stop adjustable from 5-12 mm
- ref. no. 510 : For unsheathing and stripping
- Side-cutters up to maximum 3 mm in diameter

**Advantage:**

- Also suitable for use in hard-to-reach areas thanks to the narrow jaws
- The external insulation is not damaged thanks to a special gauging system
