

11-Feb-2022

PCN #: PCN-22-128530

Subject : AMPSEAL 8P, 14P, 23P & 35P Sealed Headers - Capacity Seal Dispensing Line

Description of Change : The Industrial and Commercial Transportation business unit of TE Connectivity is adding a new capacity seal dispensing line for 8P, 14P, 23P, and 35P AMPSEAL headers for the part number(s) listed below. These PNs are TE proprietary designs, therefore considered catalog/general market products. PPAP requests must be submitted within 14 days of PCN submission via ict-ppap-request@te.com or ePPAP system. Submission will not occur without request. If PPAP requested, disposition response is required within 14 days of submit date or it will be considered approved. The new dispense line is necessary to increase production capacity. The added line does not impact connector performance. **IMPORTANT:** No fit, form, or function change. Product drawing(s) are not affected. Parts off the new line are identical to current production. Shipments from the current and new dispensing lines may be mixed.

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
