

# 8003 B Zyklop Metal Ratchet with push-through square and 3/8" drive, 3/8 inch x 222.0 mm

The Zyklop Ratchets, 3/8"

<b>EAN:</b>	4013288174031	<b>Size:</b>	305x50x28 mm
<b>Part number:</b>	05004033001	<b>Weight:</b>	334 g
<b>Article number:</b>	8003 B	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82041100

- Forged, full metal ratchet (chrome-molybdenum) that is extremely robust with a long service life; slim design to enable work in very confined spaces.
- The dual-ratchet-teeth design means that a 76 fine-toothing division can be achieved from the 38 robust teeth with a return angle of only 4.7°.
- Absolutely smooth switchover of the non-detachable push-through square
- For 3/8" square sockets with ball lock
- Very robust without any restrictions on torque

Zyklop Metal ratchet with push-through square. Slim design for work in even very confined spaces. The dual ratchet teeth design makes a 76 fine-pitched toothing out of 38 robust teeth that allows a return angle of only 4.7°. Very simple direction change by actuating the non-detachable push-through square; for the first time also with secure socket locking function. Forged, full metal ratchet (chrome-molybdenum steel) for particularly high robustness and long service life.

**8003 B Zyklop Metal Ratchet with push-through square and 3/8" drive, 3/8 inch x 222.0 mm**  
**The Zyklop Ratchets, 3/8"**

**Zyklop Metal Push**

Due to the ever-more confined working environment, space is becoming more and more an issue for the application of ratchets. Our product developers therefore intensively occupied themselves with the issue of confined working spaces, and Wera has now solved this problem. The extremely slim and robust Zyklop Metal ratchet with a long lever was what emerged. When the socket must not get lost and a coincidental change of direction has to be avoided at all cost, the Zyklop Metal Push is the correct choice.

**The Zyklop Ratchet Metal Push**

Extremely slim. Long leverage. With push-through square.

**Slim design**

Forged, full metal ratchet (chrome-molybdenum) that is extremely robust with a long service life; slim design to enable work in very confined spaces.

**Square drive**

Smooth push-through mechanism, that cannot get lost.

**Dual ratchet teeth**

The dual-ratchet-teeth design means that a 76 fine-toothed division can be achieved from the 38 robust teeth with a return angle of only 4.7°.

**Ball lock**

The ball lock holds the sockets and attachments securely, ensuring safe working. A changeover into any predefined position is completed by simply pressing the release button – this is even the case in the 90° position.
