2. Description of changes / news:

To harmonize our D-Sub Portfolio with turned contacts we will change contact plating of D-Sub **Waterproofed** on termination side to our common standard.

Pre-tinning of the signal contacts in the termination area is omitted. The contact surface remains gold-plated throughout.

Please find below the optical comparison of the old and new version.

Example 9-Pin Version 09675096758:

3. Impact on product specification:

There will be no impact on the function.
Contact plating has been used for D-Sub Standard connectors since many years successfully.

4. Scheduled date of implementation:

Last shipment (date): 2022.12.02
Please take into account the currently long delivery times.

5. Identification of change:

Article numbers will remain unchanged.
Revision level will be increased.
