

Cylindrical spring balance

with hook

Application:

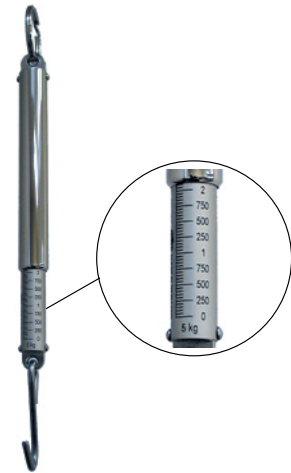

Convenient, precision spring scale for measuring weight

Execution:

- Chrome-nickel steel and brass, bright nickel-plated
- Suspension at the top end with round eyelet
- Suspension at the bottom end with hook
- Error limit $\leq 1\%$ of end value

Advantage:

- laser scale for high-contrast reading
- Overload protection up to approx. 20 % of final value

Art. no.	44215 040
Min./max. weight measuring range	0-2.5 kg
Scale value, weight	0.25 kg
Length	250 mm
Diameter	14.5 mm
Gross Weight	0.155 kg
Product Group	443
