Leipzig, 3. Mai 2019

**Declaration - EC-Type-Examination-Certification in accordance to  
PPE regulation (EU) 425/2016**

Dear Mrs. Rook, Dear Mr. Folkers,

we confirm that your company has ordered re-tests and the re-certification in  
accordance to EN ISO 20345:2011 / EN ISO 20347:2012 for the types of polymer boots

**MK-2 / MK-2 (Rig-Air/Thermoflex) / MK-3 / MK-4A / MK-4B / Thermo+ and VT+**

The tests are already running without any previous complaints.

In the past year, we have had frequent contact with your company regarding the  
re-certification of the polymer boots in accordance with the new PPE regulation.

Our test laboratory is overloaded with applications. As a result of this overload of  
applications, we were unfortunately unable to complete the certification on time.

We very much regret this.

Of course we are aware that this raises questions from the market (customers and end  
users).

For now, we can assure you that we do our utmost best to have the polymer boots  
tested and certified in accordance to PPE regulation 425/2016 (EU) as soon as possible.

With kind regards,

TÜV Rheinland
