

Depth measuring instrument

Movable measuring spindle

Application:

For measuring hole depths, clearances etc.

Execution:

- Brushed chromium-plated measuring bridge
- Hardened and lapped support surface
- Flatness tolerance 0.004 mm
- Bored measuring pin and gauge slide
- Movable measuring spindle

Delivery:

In a case

Art. no.	33604 100
Scale value	0.01 mm
Length measuring range	30 mm
Measuring depth	200 mm
Measurement force	1.4 N
Bridge length	80 mm
Bridge width	16 mm
Outer diameter	58 mm
Calibration Group	On demand
Gross Weight	0.800 kg
Product Group	331

EAN

4031452400267
