

# ESD Packaging Tape

## Description

A conventional self-adhesive PVC tape suitable for sealing outer cartons, with a printed ESD warning. The tape is yellow and the black printed warning features the ESD hand-in-triangle logo specified by EN 61340-5.

Image shown for illustration purposes only.

## Features

- The tape is tribocharging and is not suitable for use in an EPA. It is however suitable for sealing secondary packaging of electrostatic sensitive devices such as cardboard boxes
- A conventional self-adhesive PVC tape
- Uses an acrylic gum adhesive. The tape is yellow and is printed in black with the ESD hand-in-triangle logo specified by EN 61340-5
- Roll width is 50mm, roll length is 66m

## Notes

Replace regular adhesive tapes with Antistatic tapes complying with EN 61340-5

- All generators of electrostatic charges, such as untreated plastic films, foams, synthetic fibres, adhesive tapes, etc., must be prohibited and should be kept away from the EPA. (EN 61340-5-2 section 6)
- EPA should never have any electrostatic generative adhesive tapes or labels, as these can cause very high potentials when applied or stripped off. (EN 61340-5-1 section 7.4)
