CRIMP TOOL SOLAR CELL CONNECTORS MC3/MC4 2.5-6mm2(AWG14-10)

High quality crimping tool. CrimpXchange is available in several combinations with a frame equipped with crimping dies from the NCXD / DHD / DRG series. Two more pairs of NCXD crimping dies can be stored in the handles. Exchange of crimping dies is quick and easy with the release buttons on the front of the tool, no other tools are needed. CrimpXchange is a ratchet crimping tool which ensures that the crimping is completed. Equipped with ergonomic handles.

Length: 235 mm.

Choose between buying the frame and combine the crimping dies of your choice or buying one of our ready-made concepts.

Available in several ready-made alternatives equipped with 1 set of dies for crimping of:

- Deutsch- Insulated terminals.- End sleeves- Heatshrink insulated butt splices- Uninsulated terminals with open barrel (roller compaction)- Uninsulated copper tube splices and cable lugs (KST/KRT/KSF/KRF)

## Product Properties:

|  |                                  |
|--|----------------------------------|
| With locking device (for mechanical tools) | Yes                              |
| Inserts exchangeable                       | Yes                              |
| With automatic return                      | Yes                              |
| Suitable for                               | Cable lugs and connectors        |
| Construction/operation                     | Ratchet model mechanical         |
| For component                              | Solar cell connectors            |
| Compression shape                          | Universal (exchangeable inserts) |
| Cycle time                                 | 2 s                              |
