

Masking Tapes

- 3M masking tapes are developed to cover the multitude of industrial masking processes
- They enable the consistent clean removal, sliver resistance and superior quality adhesives that prevent lifting

Low Bake Masking Tape (80°C) - 2211

- Utility masking tape
- Performs up to 80°C
- Short term paint masking at low bake
- Green coloured core

Low Tack - High Temperature Masking Tape (135°C) - 7120

- Low adhesion masking tape
- Use for sensitive materials e.g treated wood, anodised metals - aluminium, titanium
- Performs up to 135°C
- White coloured core
