Last date to request Samples by Customer :	August 18, 2023		
Traceability Code Markings / Date :	Product made after planned implementation date can contain the change		

Before Picture

Resin Supplier Location Change

- Due to manufacturing constraints at the Manchester, TN **USA** location for one of our resin suppliers, it has been determined to move the manufacturing of a resin product to the Sparta, TN **USA** location of that same supplier.
 - Product will not be dual sourced, once moved, production will no longer occur at the Manchester facility for this resin
- The ability to purchase resin from this alternate location of our current resin supplier is needed to keep up with current and future product demand.
- Risk of receiving resin from this alternate location is Very Low as the supplier itself isn't changing
 - Product would be made from same the manufacturer, using the same raw components
 - Resin recipe also will not change
 - Both manufacturing locations are within the United States and within the same State – Tennessee.
