Product/Process Change Notification  
<F161 – Resin Improvement >

|  |   |
|--|---|
| <b>Date: 31/07/2014</b>                  | ID Number: PCN-140731-NC  |
| <b>Affected Product</b>                  | F161 series   |
| <b>Change</b>                            | New additive to the existing resin used in F161 series capacitors.  |
| <b>Justification and Benefits</b>        | <p>A minor modification of the resin through the implementation of an additive improves the overall mechanical behavior of the F161 series during the reflow process.</p> <p>The new formulation does not affect the electrical characteristics, performance or reliability of the component as confirmed by KEMET qualification plan including AECQ200 tests.</p>  |
| <b>Effective Date and Identification</b> | <p>Identification of parts will be made by the manufacturing date on the part and lot code on the packaging label.</p> <p>No changes to appearance or the packaging label will be made.</p> <p>The change will be effective from manufacturing date Nov.2014</p> <p>Without acknowledgement of this amendment notification by September 30<sup>th</sup>, 2014 KEMET will proceed to implement the change as described herein.</p> |
| <b>To Obtain Samples Contact</b>         | <p>Mr. Nick Cope, Product manager<br/>phone: +44 1305830753<br/>E-mail: <a href="mailto:nickcope@kemet.com">nickcope@kemet.com</a></p>  |
